It has been our pleasure and great honour, to organize the 15th WINFOCUS World Congress in Dubai 2019 this year at the Le Meridien Dubai Hotel & Conference Centre. Much thanks to the congress President Dr. Richard Hoppmann, and the Board Members alike for the support, co-operation and trust received from each of you and for always being there as pillars to make this congress a distinguished event.

We also take this opportunity to thank the host country, United Arab Emirates and the Government of Dubai, local WINFOCUS Chapter committee for providing the opportunity to organize and for your support to make this conference successful.

Heartfelt thanks to all the local and regional societies for Endorsing the congress and collaborating with WINFOCUS by promoting the congress in your respective regions. Your support was well received and we look forward to make our collaboration stronger in Future meetings. Thanks for being part of the WINFOCUS World Congress, Dubai.

The Congress concluded its 4 days’ program, a pre & post congress courses with hands on training sessions and 2 days’ congress program were conducted. 5 course were offered during the pre- congress, and 6 were offered for post congress. The 2-day Congress program had 2 parallel tracks covering a total of 12 sessions and 31 lecture presentations along with 5 parallel workshops on emergency and critical care ultrasound from different specialties, which was successfully delivered and was highly popular amongst the delegates. The hands on training sessions offered during pre & post congress were the highlight of the congress.

The best practitioners from around the globe participated with 91 Faculty Members joining together to represent each specialty field and delivered immaculate lectures and hands on training sessions. The speakers brought in exciting new information on innovative techniques and technologies, teaching methodologies and research.

The Sponsors and Exhibiting partners generously offered their sophisticated Ultrasound machines & equipment’s for carrying out the hands-on training sessions and workshops during the congress. It is with great appreciation to all the companies for your contribution to be able to successfully conduct a state of the art program. We look forward to our future partnership and collaboration for our next world congress as well which will happen in Hangzhou, China in 2020.

It’s been a great journey getting to know many players in the industry whilst organizing the congress and having to meet many colleagues from across the globe as well as making new contacts. Thanks to all participants for the amazing journey and we take this opportunity as well to invite you all to join us at the 16th WINFOCUS World congress 2020. in Hangzhou, China.

Arif Hussain, MD, FRCA, FCCP
Chair, Organizing Committee
15th WINFOCUS World Congress, Dubai 2019

Richard A. Hoppmann, M.D.
President, WINFOCUS
Founder, Society of Ultrasound in Medical Education
Dean Emeritus, University of South Carolina School of Medicine
The Scientific content of the 4 days’ program in Dubai, UAE had 487 participants from 53 Countries. The program offered 11 parallel courses in total, 5 parallel workshops and 2 days’ conference covering 2 parallel tracks. The Pre congress conducted 5 basic courses with interactive hands on training sessions and 6 post congress courses and 1 symposium.

The congress was led by 91 faculty members from various specialties from across the continents, who directed exceptional sessions with key updates in point of care ultrasound. The delegates were very enthusiastic and faculty members had their rapt attention until the end of the program. The hands on Sessions were the highlight of the conference.

The congress also conducted a special session on “WINFOCUS and the Middle East” whereby, the Local Chapter Chair, Organizing Committee and the WINFOCUS President chaired the session with some of the regions renowned names in emergency & critical care Ultrasound. There were also Panel Discussion interactive sessions.

The congress received 75 abstract submissions from many countries of which 59 participated to present at the congress. The Judges Panel visited the Poster presentations panel and selected 6 abstracts for oral Presentation. The best abstracts were announced at the end of the session and awarded prizes.

The congress also recognized and awarded some key members for their services and contribution during the Presidential Awards ceremony.

Following key members received the Recognition Awards

- Carmela Graci, MD, PhD. Presidential Recognition Award for Outstanding contribution and Service to the WINFOCUS 2019
- Giovanni Volpichille, MD, Presidential Recognition Award for Outstanding contribution and Service to the WINFOCUS 2019
- Anthony Dean, MD, Presidential Recognition Award for Outstanding contribution and Service to the WINFOCUS 2019
- Davide Neri, Presidential Recognition Award for Outstanding contribution and Service to the WINFOCUS 2019
- Dr. Majid Al Salamah, MD, Presidential Award for his contribution to teach and promote PoCUS in the Middle East
- Dr. Hani Hariri, Presidential Award for his contribution to teach and promote PoCUS in the Middle East

The congress received more than 60 Ultrasound machines & equipment’s from sponsors and exhibitors to run the courses & workshops. In all the courses and workshops, a maximum of 6-7 participants for each machine/instructor for the hands-on sessions whereby they were able to learn and experience at the same time.

The Congress was able to meet the expectations of the goals to promote quality trainings and to identify the technical, clinical, organizational, and social competencies necessary for effective incorporation and diffusion of “point-of-care” ultrasound into critical scenarios, the methodology, technology, and instrumentation necessary for its implementation, and the feasibility, sustainability, and accuracy of the identified technologies.
Event Venue & Accommodation

The congress was hosted at the beautiful Le Meridien Dubai Hotel & Conference Centre for the 4 days’ program. The Faculty members were also comfortably accommodated in the same hotel.

OPENING CEREMONY

The Opening Ceremony was hosted by Dr. Hadi Atteli. It begun with the UAE National Anthem and then a reading from the holy Quran. The Guest of honor representing the patron of Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences was H.E. Mr. Abdulla Bin Souqat, Executive Director, Sheikh Hamdan Bin Rashid Al Maktoum Award for Medical Sciences, Dubai, United Arab Emirates.

The welcome note was opened with a few words from the Guest of honor and then followed by a message from the President of the World congress, the President Elect – WINFOCUS and the Chairman Local Chapter - WINFOCUS

WINFOCUS Vision & Mission:
The World Interactive Network Focused On Critical UltraSound (WINFOCUS) is the world leader scientific network committed to develop Point-of-Care Ultrasound practice, research, education, technology, and networking, addressing the needs of patients, institutions, services, and communities living in out-of-hospital and in-hospital critical scenarios. Our goals:
• To identify critical scenarios where ultrasound, when implemented and incorporated into point-of-care, represents a critical added value to improve management, performance and outcomes;
• To identify ultrasound “point-of-care” applications within extra-hospital and in-hospital scenarios, consistent with prevention, triage, diagnosis, monitoring and treatment of the critical patient;
• To identify the technical, clinical, organizational, and social competencies necessary for effective incorporation and diffusion of “point-of-care” ultrasound into critical scenarios, the methodology, technology, and instrumentation necessary for its implementation, and the feasibility, sustainability, and accuracy of the identified technologies;
• To evaluate and compare the experiences of different investigators through networking actions;
• To develop research projects and conferences;
• To promote quality assured training programs, incorporating them, where appropriate, into school and university curricula.

CONGRESS GOALS AND OBJECTIVES

The first organization to adopt Point of Care Ultrasound in Emergency and Critical Care Medicine concluded its 15th World Congress by offering an extensive program that was of very high standards and of great educational value for attendees.

The program content offered the following topics:
• 11 different point of care ultrasound courses with hands on training with the world’s best faculty
• Artificial intelligence, deep learning and the latest technology in ultrasound with industry experts and scientists
• Innovative concepts discussed by international speakers in the plenary sessions
• Poster session for sharing the latest ultrasound related research
• Latest equipment (new probes, ultra-compact and smart machines) displayed in the exhibits
• Excellent social and recreational opportunities in the exciting Emirate of Dubai

SCIENTIFIC PROGRAM OVERVIEW

PRE-Congress Courses:
- Ultrasound Life Support Course - Basic Level
- WINFOCUS Basic Echocardiography Course
- Lung UltraSound Course - Basic Level
- Pediatric and Neonatal Course in UltraSound
- Primary Care Ultrasound Course

Congress Sessions:
- Keynote
- Transesophageal approach to cardiac ultrasound during resuscitation
- Cardiac Arrest
- Diaphragm
- Heart Failure

Great Room 1
- Major Trauma
- Pediatric

Symposium:
- Artificial Intelligence in Point of Care Ultrasound
- WINFOCUS and the Middle East (Special Session)
Oryx Room
- ICC on Medical Education
Great Room 2
- Panel Presentation: Artificial Intelligence and Deep Learning
- Guiding Procedures
- Cardio-respiratory Assessment in ICU
- Scarce Resource Areas
- Preparing Future PoCUS Leaders (Ultrasound in Medical Education)
CONGRESS WORKSHOPS
- Nerve blocks for emergency physicians I & II
- Musculoskeletal I & II
- Intravenous Access I & II
- ICU Procedures I & II
- LUS

POST-CONGRESS COURSES
- Lung Ultrasound Course - Advanced Level WINFOCUS
- More than Basic
- Echocardiography Course
- Ultrasound Life-support Course - Advanced Level
- Trans-esophageal Echocardiography guided Resuscitation
- Nerve Blocks - Advanced Level
- Ultrasound course for Medical Students
The congress received a total of 75 Abstracts of which 59 attended to present their abstracts during the conference. Dr. Larry Milniker led the Abstract evaluation session with all the participants which were categorized into Oral & poster Abstracts Presentation categories. A total of 6 Abstract’s were selected for Oral Presentation.

The Judges reviewing the abstracts were Dr. Larry Milniker and Dr. Zeyad Al Rais. They visited the poster panels and adjudged the winners for the respective category.

The Winners adjudged for the abstracts were as follows:

**ORAL ABSTRACT WINNERS**

1st Prize Winner – Yale Tung Chen
Hospital Universitario la paz
Title: Relevance of Point-of-Care Ultrasound in Risk Stratification Gastrointestinal Bleeding: The Ultrasound Enhanced Rockall, Glasgow-Blatchford And Velayos Scores

2nd Prize Winner – Francis Emperador
King Abdulaziz Medical city
Title: Lung Ultrasound for The Assessment of Extravascular Lung Water in Cardiac Surgery: A Pilot Study

3rd Prize Winner – Alexander Bonnel
University of Pennsylvania
Title: Point-of-Care Ultrasound at Home: Use of Handheld Ultrasound in Geriatric Home Visits

4th Prize Winner - Romulo III Babasa
St. Luke’s Medical Center, Quezon City Philippines
Title: Awake but Not Beating: A Case of CPR-Induced Consciousness Documented with Point-Of-Care Ultrasound in The Emergency Department

**POSTER ABSTRACT WINNERS**

1st Prize Winner – Arif Alper Cevik, UAE University, College Of Medicine And Health Sciences
Title: Point-of-Care Ultrasound (POCUS) Training in an Emergency Medicine Clerkship: A Prospective Study

2nd Prize Winner – Krystian Sporysz, Medical doctor ultra-sonographer Intensivist
Title: Do We Still Need a Chest X-Ray for Detecting Pneumonia or is it Time for Point-Of-Care Lung Ultrasound?

3rd Prize Winner – Siti Khadijah Abdul Hamid, Hospital University Sains Malaysia
Title: A Monster in the Red Sea

Pre & Post congress Courses and Workshops Registration

REGISTRATION OVERVIEW

Pre Congress Course Registration

- WINFOCUS Basic Echocardiography Course: 50
- Ultrasound Life Support Course - Basic Level: 15
- Primary Care Ultrasound Course: 8
- Pediatric and Neonatal Course in Ultrasound: 48
- Lung Ultrasound Course - Basic Level: 41

Post Congress Courses Registration

- Ultrasound Life-support Course - Advance Level: 28
- US for Med. Stud: 10
- Trans-esophageal Echocardiography guided Resuscitation: 16
- Nerve Blocks - Advanced Level: 23
- WINFOCUS More than Basic Echocardiography Course: 27
- Lung Ultrasound Course - Advanced Level: 52

Congress workshop Registrations

- Nerve blocks for emergency physicians I & II: 27
- Musculoskeletal I & II: 16
- Lung Ultra Sound: 21
- Intravenous Access I & II: 16
- ICU Procedures I & II: 20

**MARKETING GOALS**

The Marketing Plan for the 2019 world congress was planned in a manner to reach out to as many colleagues across the globe to participate and join. Various action plan was set up to target the mass across the region and across Europe and America. With a planned manner, the multiple societies were also contacted for endorsement and support congress materials were announced. The Congress have the following Marketing strategies in place for a successful attendance. The Marketing Goals were setup for the announcement right at the beginning of the preparation for the congress as follows;

- **Announcements through Mass mail to database and SMS Marketing:** The congress reached out to delegates within various field that applies the Ultrasound methods of technology through emailing database and SMS database.

- **Web listing the congress announcements on various platforms:** Various sites that announces congresses and conferences were targeted to be updated with the congress dates and venues for interested delegates to access the program and participate.

- **Targeting to reach out to the member Societies for endorsement & support:** Multiple societies and universities were contacted for endorsement support and offered discounted registration in return. Many societies such as critical care societies, emergence medicine, cardiology, paediatrics etc supported through their database announcements and participation utilizing the discounted registrations offered.

- **Offering Media Partnership Opportunities:** Barter deals to cross promote events and announcements, publications in magazines, media interview etc.

- **Engagement through the Social Media:** Weekly Postings of congress announcements through social media channels
MARKETING GOALS

Web-Listing

SOCIAL MEDIA MARKETING PLATFORMS USED

The use of Social Media is the latest technology available for mass access to information within short period of time. There are various social media mediums available to meet the marketing announcement needs. Timely post of the congress content on such medium benefits the congress in spreading the awareness in different parts of the world at the same time.

The congress utilized Facebook, Instagram and Twitter and targeted to post certain number of announcements each month.

The 15th WINFOCUS World congress mobile app played a vital role in aiding the attendees and users with all information regarding the congress happenings.

The App was downloaded by 274 people but 243 users registered and were completely engaged during the 4 days event. The Mobile app supported in providing the following solutions aptly in the following areas:

1. Scientific program Schedule at the click of your finger
2. All Updates notifications
3. Attendees could chat with fellow attendees
4. All attendees could share and upload photo’s through the app
5. View all congress information through your mobile device
The Congress organized a social and Cultural Dinner for the Faculty members at the Sheikh Mohammed Centre for Cultural Understanding on the 22nd February 2019 Evening. The Cultural dinner was sponsored by the Dubai Department of Tourism and commerce Marketing (DTCM). The Faculty members enjoyed dinner and learned about the Arabic cultural heritage which was quite an entertaining event.

1. Board Members Meeting on 22nd February 2019
2. Council meeting on 23rd February 2019
